CONCLUSIONS ARE DEFINITIVE APPRAISAL OF CONTENT IS TENTATIVE.

1. A sketch with legend of the Paged area in the northern part of Gdynia harbor is shown on page 2. 25X1
2. On the evening of 3 August 1955, a train of empty railroad cars was observed on the tracks (marked No. 2 on the sketch). These railroad tracks run through the warehouse.
3. On the morning of 4 August 1955 it was observed that each of the railroad cars was loaded with an artillery gun and tank. One door of the warehouse was open. There was a large opening with a ramp (rullbana) on the floor of the warehouse; this probably led to some underground storehouse.
4. Immediately south of the warehouse were three military barracks marked No. 3 on the sketch. Additional military barracks and a number of artillery bunkers were located north of the railway station area.
